OEM SERVICE

What is OEM?

Our OEM service allows customers to use their own brand while we provide all the necessary materials and expertise.

What types of products can you manufacture?

We specialize in a variety of baked goods, including original cookies, sandwich cookies, pie cookies, and more. We also offer food ingredients like resistant dextrin and coconut powder.

What are the benefits of using our OEM service?

Partnering with us for OEM service provides access to high-quality materials, advanced manufacturing capabilities, extensive customization options, and a collaborative approach to ensure your brand's success.

What is the MOQ?

The MOQ depends on the specific product and customization requirements. Please contact us to discuss your needs and obtain detailed information.

our success story with emart

Emart, one of the biggest supermarket in Korea, entrusted Satoria Agro's OEM Service to produce one of their famous brand, named "No Brand".

EMART DISTRIBUTIONS

South Korea

Vietnam

Philippines

Singapore

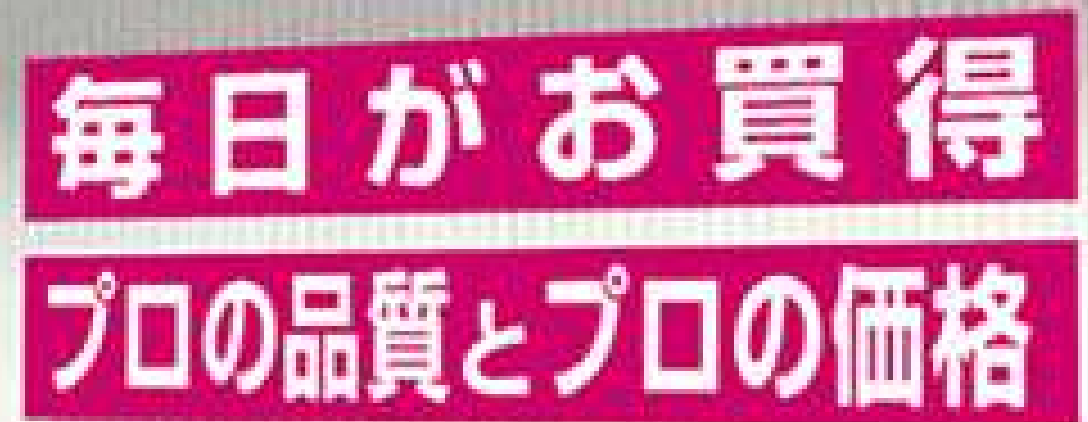

Mongolia

our success story with

Kobe Bussan Group operates its own food processing plants in 25 locations across Japan. Kobe Bussan utilizes our company's OEM services for their own brand of dietary fiber using our resistant dextrin product.

TOLL MANUFACTURING

What is Toll Manufacturing?

Toll manufacturing is a service where we use your provided materials to produce finished products according to your specifications. You supply the raw materials, and we handle the manufacturing process.

What are the benefits of using your toll manufacturing?

Our toll manufacturing service allows you to leverage our advanced production facilities, skilled workforce, and quality control processes without the need to invest in your own manufacturing infrastructure.

What is Spray Dry Toll Manufacturing?

Our spray dry facilities enable us to transform liquid formulations into high-quality powders. From spray dry milk powder to coffee creamer, fruit powders, vegetable powders, and more, we offer diverse solutions to meet your product specifications.

our success story with

Givaudan, a Swiss multinational leader in the flavors, fragrances, and active cosmetic ingredients industries, and the world's largest company in its sector since 2008, utilizes our company's toll manufacturing services for their flavoring products.
